## PROFESSIONAL EXPERIENCE

---

### Career Technology Apprenticeship Cohorts (CTAC) Apprentice

May 2024 – November 2024

*Stiegler EdTech, LLC*

- Completed a rigorous 24-week technical training program at Stiegler EdTech, mastering foundational and advanced skills in computing, front-end development, JavaScript, Node.js, APIs, SQL, Java, and full-stack web development.
- Engaged in specialized elective tracks focusing on Full-Stack Development, Data Analytics, Cyber Security, and Project Management, allowing for personalized skill enhancement aligned with career aspirations.
- Participated in on-the-job training during weeks 16-20, applying theoretical knowledge in real-world settings through a hybrid approach of continued education and workplace integration.
- Developed and presented a comprehensive capstone project in the final phase of the program, leading to successful placement into a full-time role facilitated by the SET team and program partners.

### Logistics Operations Specialist

March 2022 – July 2022

*FedEx Corp*

- Collaborated effectively with a team to manage and streamline the unloading process of packages from trucks, demonstrating strong teamwork and coordination skills critical in agile software development environments.
- Maintained meticulous records of truck operations and package logistics using Microsoft Excel, ensuring accurate data management and reporting—skills applicable to database management and software project tracking.
- Employed strong communication skills to promote safety and operational efficiency, facilitating cross-functional team support and enhancing problem-solving capabilities in dynamic settings.
- Adapted to varying operational needs by assisting in multiple areas of the warehouse, showcasing flexibility and a proactive approach in managing tasks and resources, akin to managing diverse technology projects.
